

Ep 125

STAY SHARP

in Digital Engineering with

Strategic Patterns for Implementing AI in Manufacturing

Hosts, Juliann Grant
and Jonathan Scott

Guest: Diego Tamburini, PhD,
CIMdata

Lessons from AI in the Wild: Stay Sharp Episode 125

In the Razorleaf podcast, *Stay Sharp in Digital Engineering*, Episode 125, *Strategic Patterns for Implementing AI in Manufacturing*, co-hosts **Jonathan Scott** and **Juliann Grant** sit down with **Diego Tamburini, PhD**, the AI Practice Director and Executive Consultant at **CIMdata**. A recognized leader in using AI to drive digital transformation in the industrial sector, Diego brings a wealth of experience with AI to the conversation, including pioneering the use of AI across Microsoft's marketplace engineering organization. To shed light on the reality of the "all-AI all the time" message these days, the trio dive into real stories of how AI's being used, what's working, and what's not.
